## KADOORIE FARM AND BOTANIC GARDEN (KFBG)

OUR MISSION IS

**'TO HARMONISE OUR  
RELATIONSHIP WITH THE  
ENVIRONMENT'.**

OUR VISION IS

**'A WORLD IN WHICH PEOPLE LIVE  
SUSTAINABLY WITH RESPECT FOR  
EACH OTHER AND NATURE'.**

We invite you to enjoy the magic of KFBG, and hope that you will take away special memories of a meaningful experience in our serene surroundings.

OUR PROGRAMME HIGHLIGHTS INCLUDE:

- The KFBG site offers guided tours and walking trails leading visitors through beautiful, peaceful theme gardens and forest areas;
- Regular education programmes, which help people to connect deeply with nature, often using mindfulness and art as tools; [see our website at [www.kfbg.org](http://www.kfbg.org)]
- The Orchid Conservation Programme which protects and builds assurance stocks of rare orchids; orchids can be seen in the gardens and in The Gloria Barretto Orchid Sanctuary in the Middle area of the nature reserve.
- Our pioneering biodiversity studies and advisory work in South China have helped to establish and enhance Nature Reserves, and to create stronger communities and sustainable livelihoods for villagers living around the reserves;
- Our forest restoration and monitoring work has helped to conserve the Hainan Gibbon, the world's rarest primate;
- Promotion of local sustainable agriculture through farming and permaculture-design training. We also run a Farmers' Market at Central Star Ferry Pier every Sunday, linking farmers to consumers;
- The Native Tree Nursery which produces tree seedlings to facilitate KFBG's reforestation projects at KFBG and around Hong Kong;
- The KFBG Wild Animal Rescue Centre which treats and rehabilitates rescued wildlife and runs a captive breeding programme for endangered turtles; over 50,000 wild animals have been rescued since 1994.
- The Green Hub, at the Old Tai Po Police Station, is a restored and repurposed a Grade I Historic Building. It is a centre for promoting local economies and low-carbon living programmes.

The Kadoorie brothers, Sir Horace and Lord Lawrence, sowed the seeds of KFBG when they founded the Kadoorie Agricultural Aid Association (KAAA) in 1951. Kadoorie Farm was established in 1956. In the early days, the KAAA helped people, particularly immigrants, to gain self-sufficiency through agriculture.

At one point, over one third of all Hong Kongers were immigrants. The brothers, in partnership with the Government, strove to "help people to help themselves", and gave newly-arrived farmers breeding stock, seeds, tools, training, agricultural buildings, houses, roads, paths, bridges and micro-loans.

As Hong Kong had evolved, so did the organisation. In 1995, KFBG was established as a unique public corporation funded by the Kadoorie Foundation. Since then, we have been focusing on nature conservation, nature education and sustainable living promotion in Hong Kong and South China.
