

Play **in** the Woods

2-Day Summer Camp
for Parents and Children

in Summer

This programme is for young children and parents to have an adventure together this summer with our creepy crawly friends in the garden. Through story sharing, participants are introduced to the enchanting natural world that they are intrinsically connected to. We will follow different characters in the story and get immersed in the forest by engaging in sensory activities. Children and parents will have the opportunity to weave their experiences together and create their own unique nature stories.

Programme Details:

- Learn about the natural world through interactive story sharing
- Reconnect to nature through sensory exploration
- Get immersed in the woods and discover the wonders that surround us
- Become storytellers and create a unique nature story with art together
